PROFESSIONAL SUMMARY

Games, Interactive Media, and Mobile student at Boise State University with a Computer Science minor and hands-on experience building software across web, game, and data domains. Proficient in Java, C, C#, HTML, CSS, JavaScript, and SQL, with practical experience in data analysis and collaborative development workflows. Competed in an industry-hosted data science hackathon. Eager to learn Python and apply software engineering skills in a professional environment.

EDUCATION

B.S. in Games, Interactive Media, and Mobile | Minor: Computer Science Expected: May 2027
Boise State University

TECHNICAL SKILLS

Languages: Java, C, C#, HTML, CSS, JavaScript, SQL

Frameworks & Libraries: React, D3.js, Bootstrap

Tools & Platforms: Unity, Figma, Git, GitHub, GitHub Issues, Trello

Productivity: Microsoft Office Suite, Adobe Creative Cloud (XD, Premier, Photoshop, Animate)

Other: Responsive web design, data visualization, game development, UI/UX prototyping, technical documentation

PROJECTS & COMPETITIONS

Data Science Hackathon | 3rd Place | InTimeTec September 2025

- Worked with a three-person team to analyze multi-source device datasets including telemetry codes, usage metrics, and intervention records to build a predictive model identifying devices requiring upcoming repairs

Library Management System | Boise State University Oct 2024 – Dec 2024

- Designed and built the complete front-end of a team web application using HTML and CSS, taking full ownership of the visual layout and user interface
- Collaborated with teammates who handled back-end and database responsibilities, contributing to a full-stack system with SQL-driven data management

Mobile Data Narrative | Boise State University Oct 2024 – Dec 2024

- Designed and built multiple responsive web pages using HTML, CSS, and JavaScript with Bootstrap grid layout
- Developed interactive data visualizations using D3.js and React, then documented the full development process
- Conducted structured research to define a central question and collected real-world data to support findings

Interactive Comic & 3D Walking Simulator | Boise State University Mar 2024 – Apr 2024

- Led art direction and narrative design
- Prototyped story panels in Adobe XD before implementation
- Created original artwork and frame-by-frame animations in Aseprite
